Prospective clients

Prior to any admission to the home our staff team will carry out an individual care plan assessment, which will focus on client's specific choices and needs. These care plans will be structured to the client's preferences and will focus on maintaining and developing as much independence as possible.

Whilst accepting that the majority of our clients will be suffering from dementia, we offer a sensitive support service to allow clients to embark upon a variety of daily living tasks. All clients will be offered the opportunity to personalise their rooms and to maintain as much choice and independence as they either choose or are able to accommodate.
