Prospective Resident

Prior to moving into The Mews all our residents are offered an individual care plan, assessing their wishes, choices and needs. Bespoke Care and Support will be built and structured on a person specific basis, basing the service around the persons Health and Social needs. Our residents will be at the absolute centre of the bespoke service created for them. Ensuring they are involved and in control of the care & support package built for them

Accommodation and Services

The Mews consists of seven, purpose built, self contained Residential Bungalows with an independent living feel. The Service offers bespoke and person specific care & support services to people with Mental Health conditions, learning disabilities, physical disabilities and complex needs. The aim of the service is to encourage, support and empower people to remain as independent as possible within their own living environment.

The Mews offers an onsite core Team of highly skilled and trained Support Workers, along with a Registered Manager, who will be based in the office onsite with the bungalows. However, within each individual bungalow we can also offer a bespoke and individually staffed support team for you, built around each individuals needs from assessments and funding.

All 7 bungalows are mobility friendly, with wider door frames, hallway and spacious rooms to enable access with ease.

Activities

Our residents will be supported to create their own person specific activities planner based around their own individual interests, hobbies and any groups they may wish to participate in. These may be for leisure, employment and/or education purposes. Alongside this the service will also offer 'joint Service activities', where residents may wish to take part in with staff and other clients within the bungalows as a whole service. This is each residents choice as to whether theyd like to participate in.
